ABOUT US

NEW COMMITMENTS TO OLD VALUES

When we say “It’s about the &,” we mean it. Our work is important to us, but our services go far beyond construction. The final product is a piece of the lasting relationships we form with clients and the dedication to integrity, quality and performance that goes into everything we do. Paul Jackson & Son provides hands-on management to ensure every project meets the highest standards accompanied by outstanding craftsmanship and timely completion.

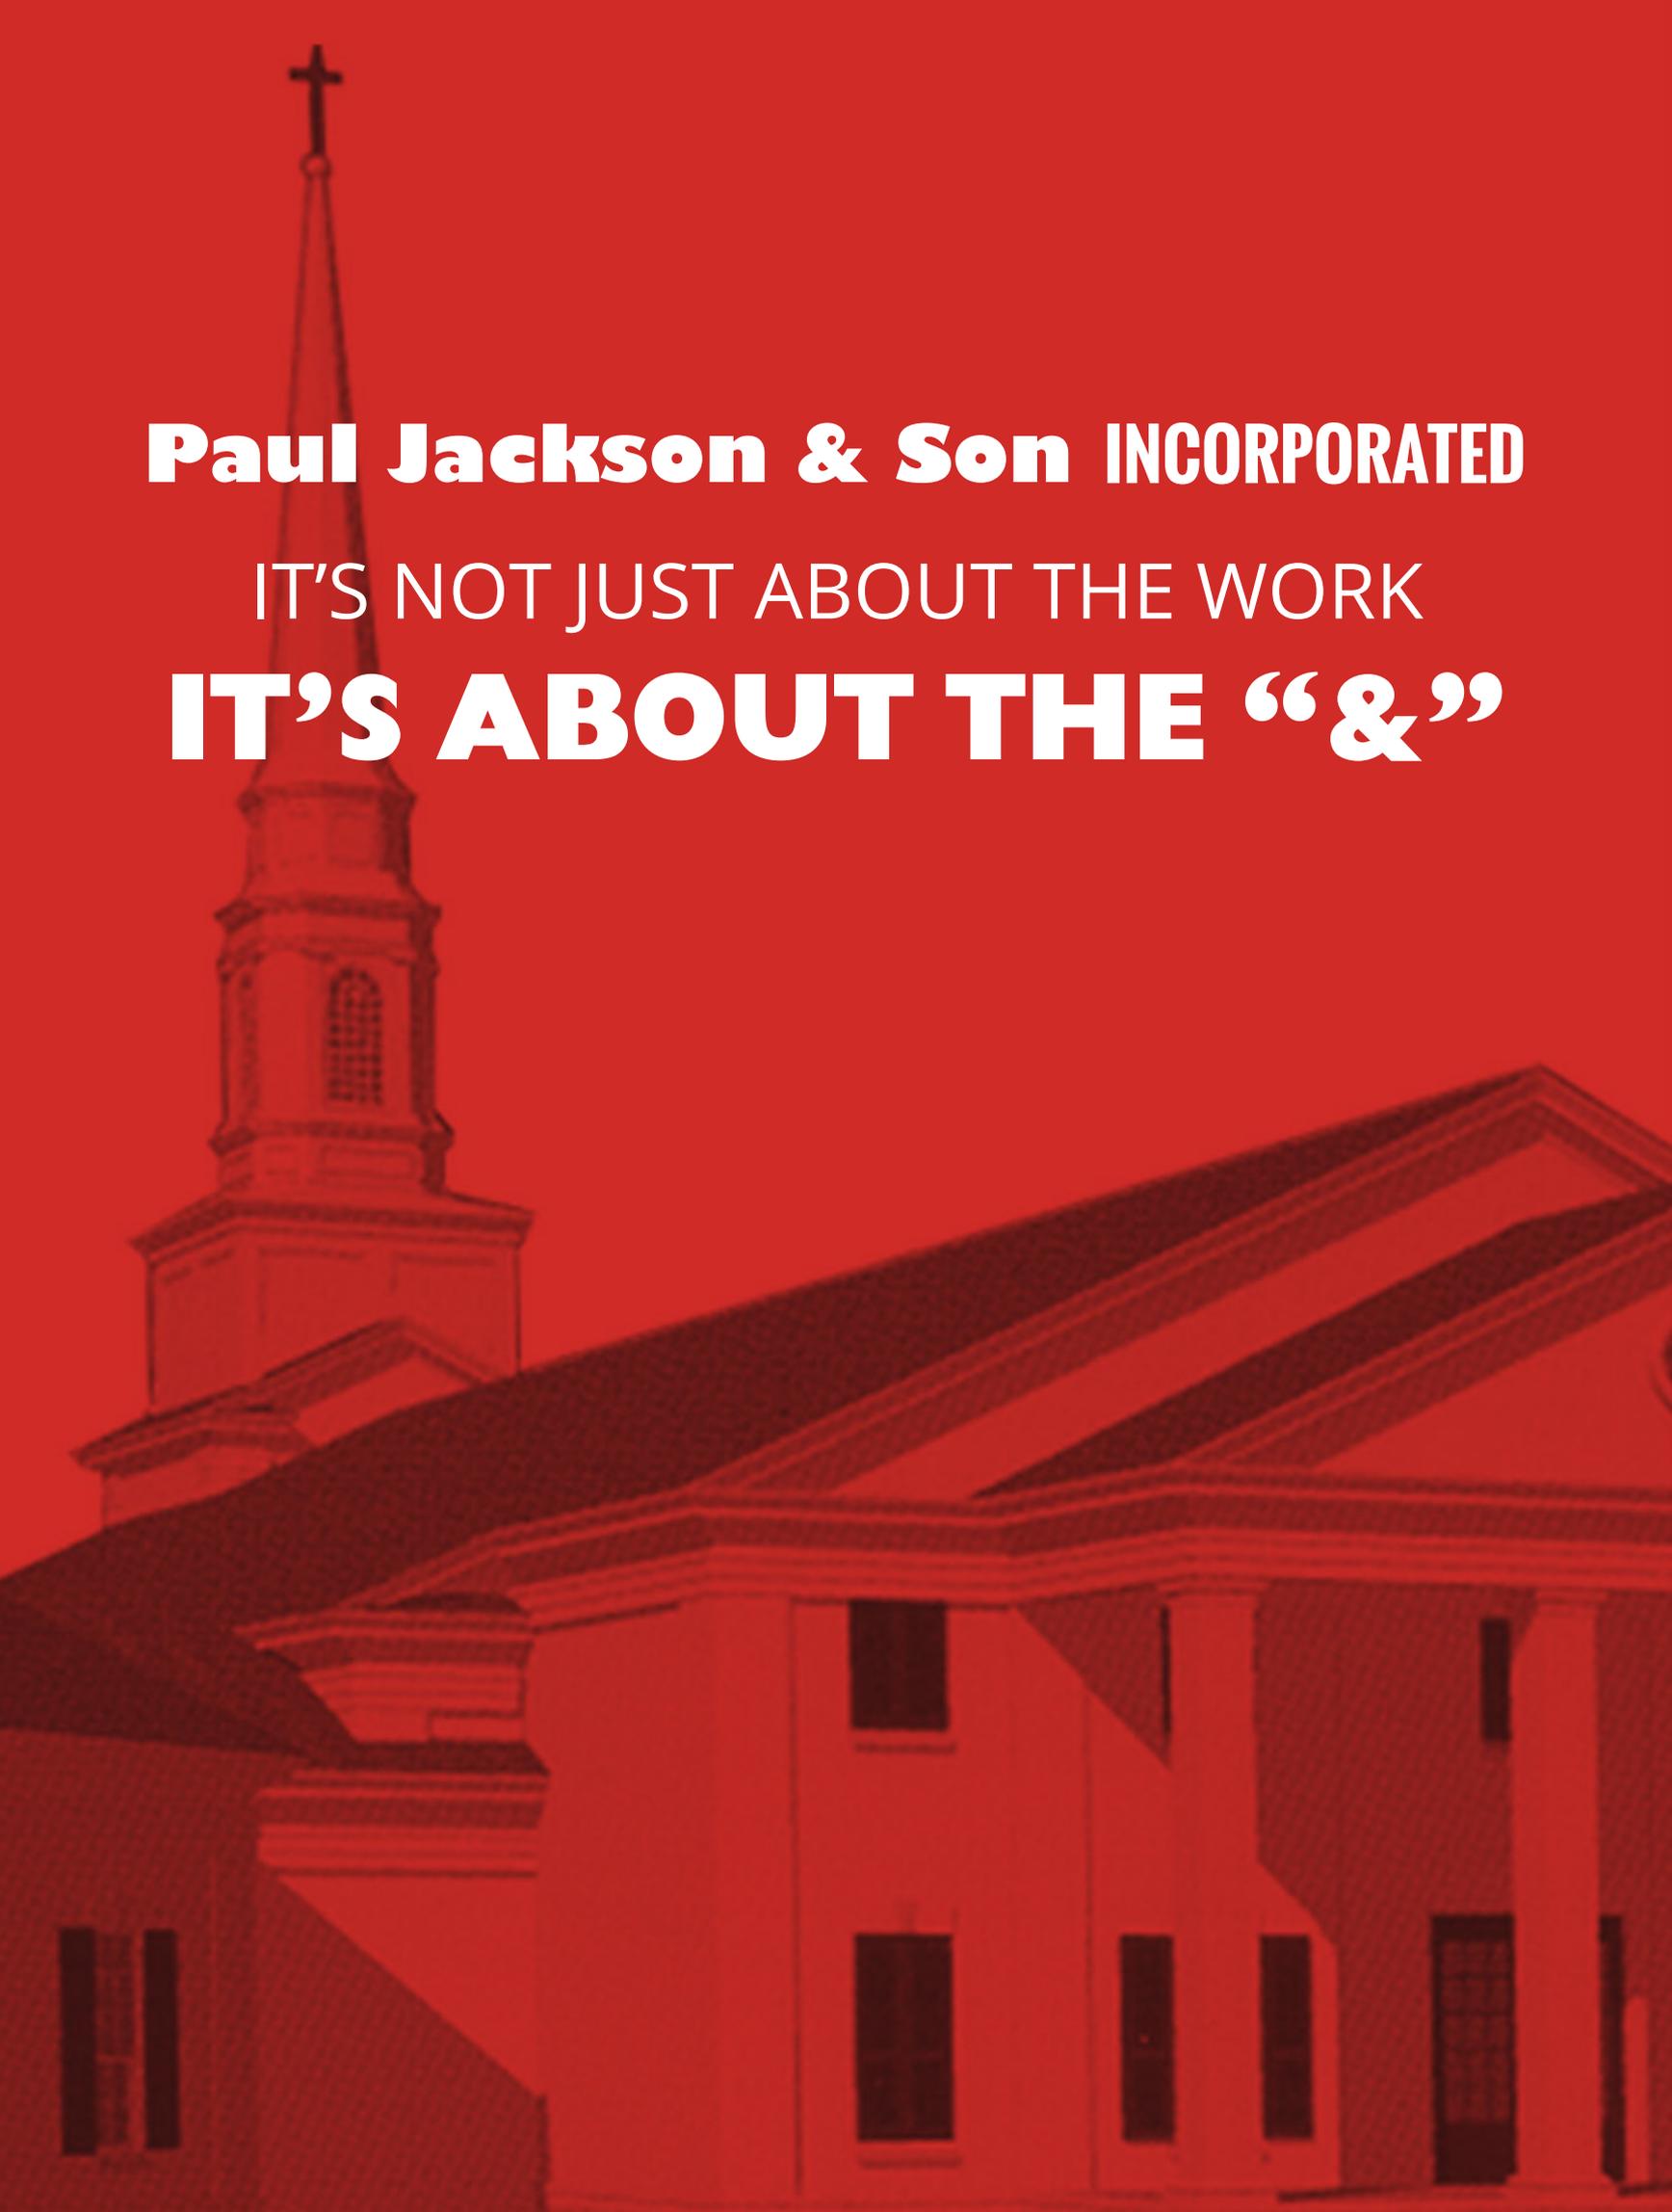

We value our history, but our dedication to forward-thinking business practices is what makes us a leader in the industry, 60 years later. We are focused on delivering what our clients need, within budgets they desire and schedules that matter to them. We maintain “New Commitments to Old Values” for all clients.

A HISTORY OF LEADERSHIP

Paul Jackson Masonry Company began in 1953, evolving into general contracting by 1956. Management of Paul Jackson & Son is paramount to our consistency and growth over the last 60 years.

Paul W. Jackson joined the company in 1979 and began serving as President in 1987. He still holds this position today. Other members of our tenured management include J. Steven Goodwin, Executive Vice President over Project Management since 1991, and Guy Nelson, Vice President over Project Development and Estimating since 2007.

Paul Jackson & Son’s Certificate of Responsibility (01813) was issued in 1964 by the Mississippi State Board of Contractors and is current today.

IT'S NOT JUST ABOUT THE WORK

IT'S ABOUT THE “&”

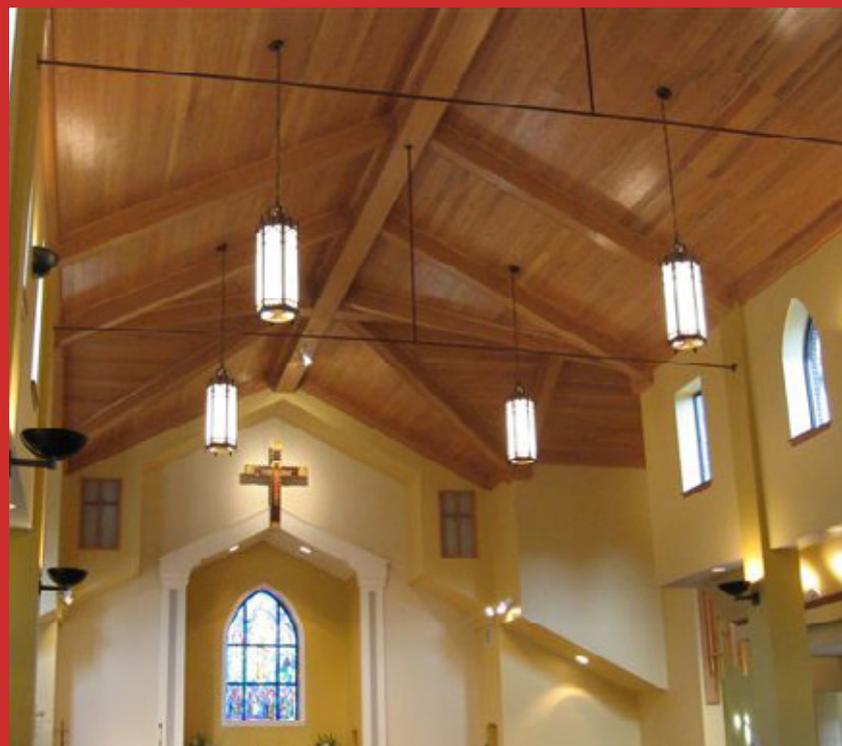

CAPABILITIES

COMMERCIAL CONSTRUCTION

Our portfolio includes large municipal, state and federally funded institutional projects as well as large corporate and retail complexes. Paul Jackson & Son understands the demands and protocols required to build sound, reliable structures, and we make it our priority to meet required budgets on crucial timelines.

CHURCH CONSTRUCTION

Our in-depth experience with churches and ecclesiastical multi-purpose facilities has made us the largest contractor of church buildings in the state of Mississippi. We understand how to work with committees and church officials in maintaining budgets while providing the needs of the church body and its commitment to growth. Our portfolio ranges from small, 3,000 square-foot chapels to large churches with up to 25,000 square-foot sanctuaries and 60,000 square-foot multi-purpose buildings.

BUILDING RESTORATION

We love being a part of preserving the past to prepare for a solid future. In fact, maintaining the integrity of historic landmarks is our passion. After working with the Mississippi Department of Archives and History to restore the old Inez Hotel in downtown Brookhaven, Paul Jackson & Son became experts on construction guidelines for historic preservation.

SCHOOLS & UNIVERSITIES

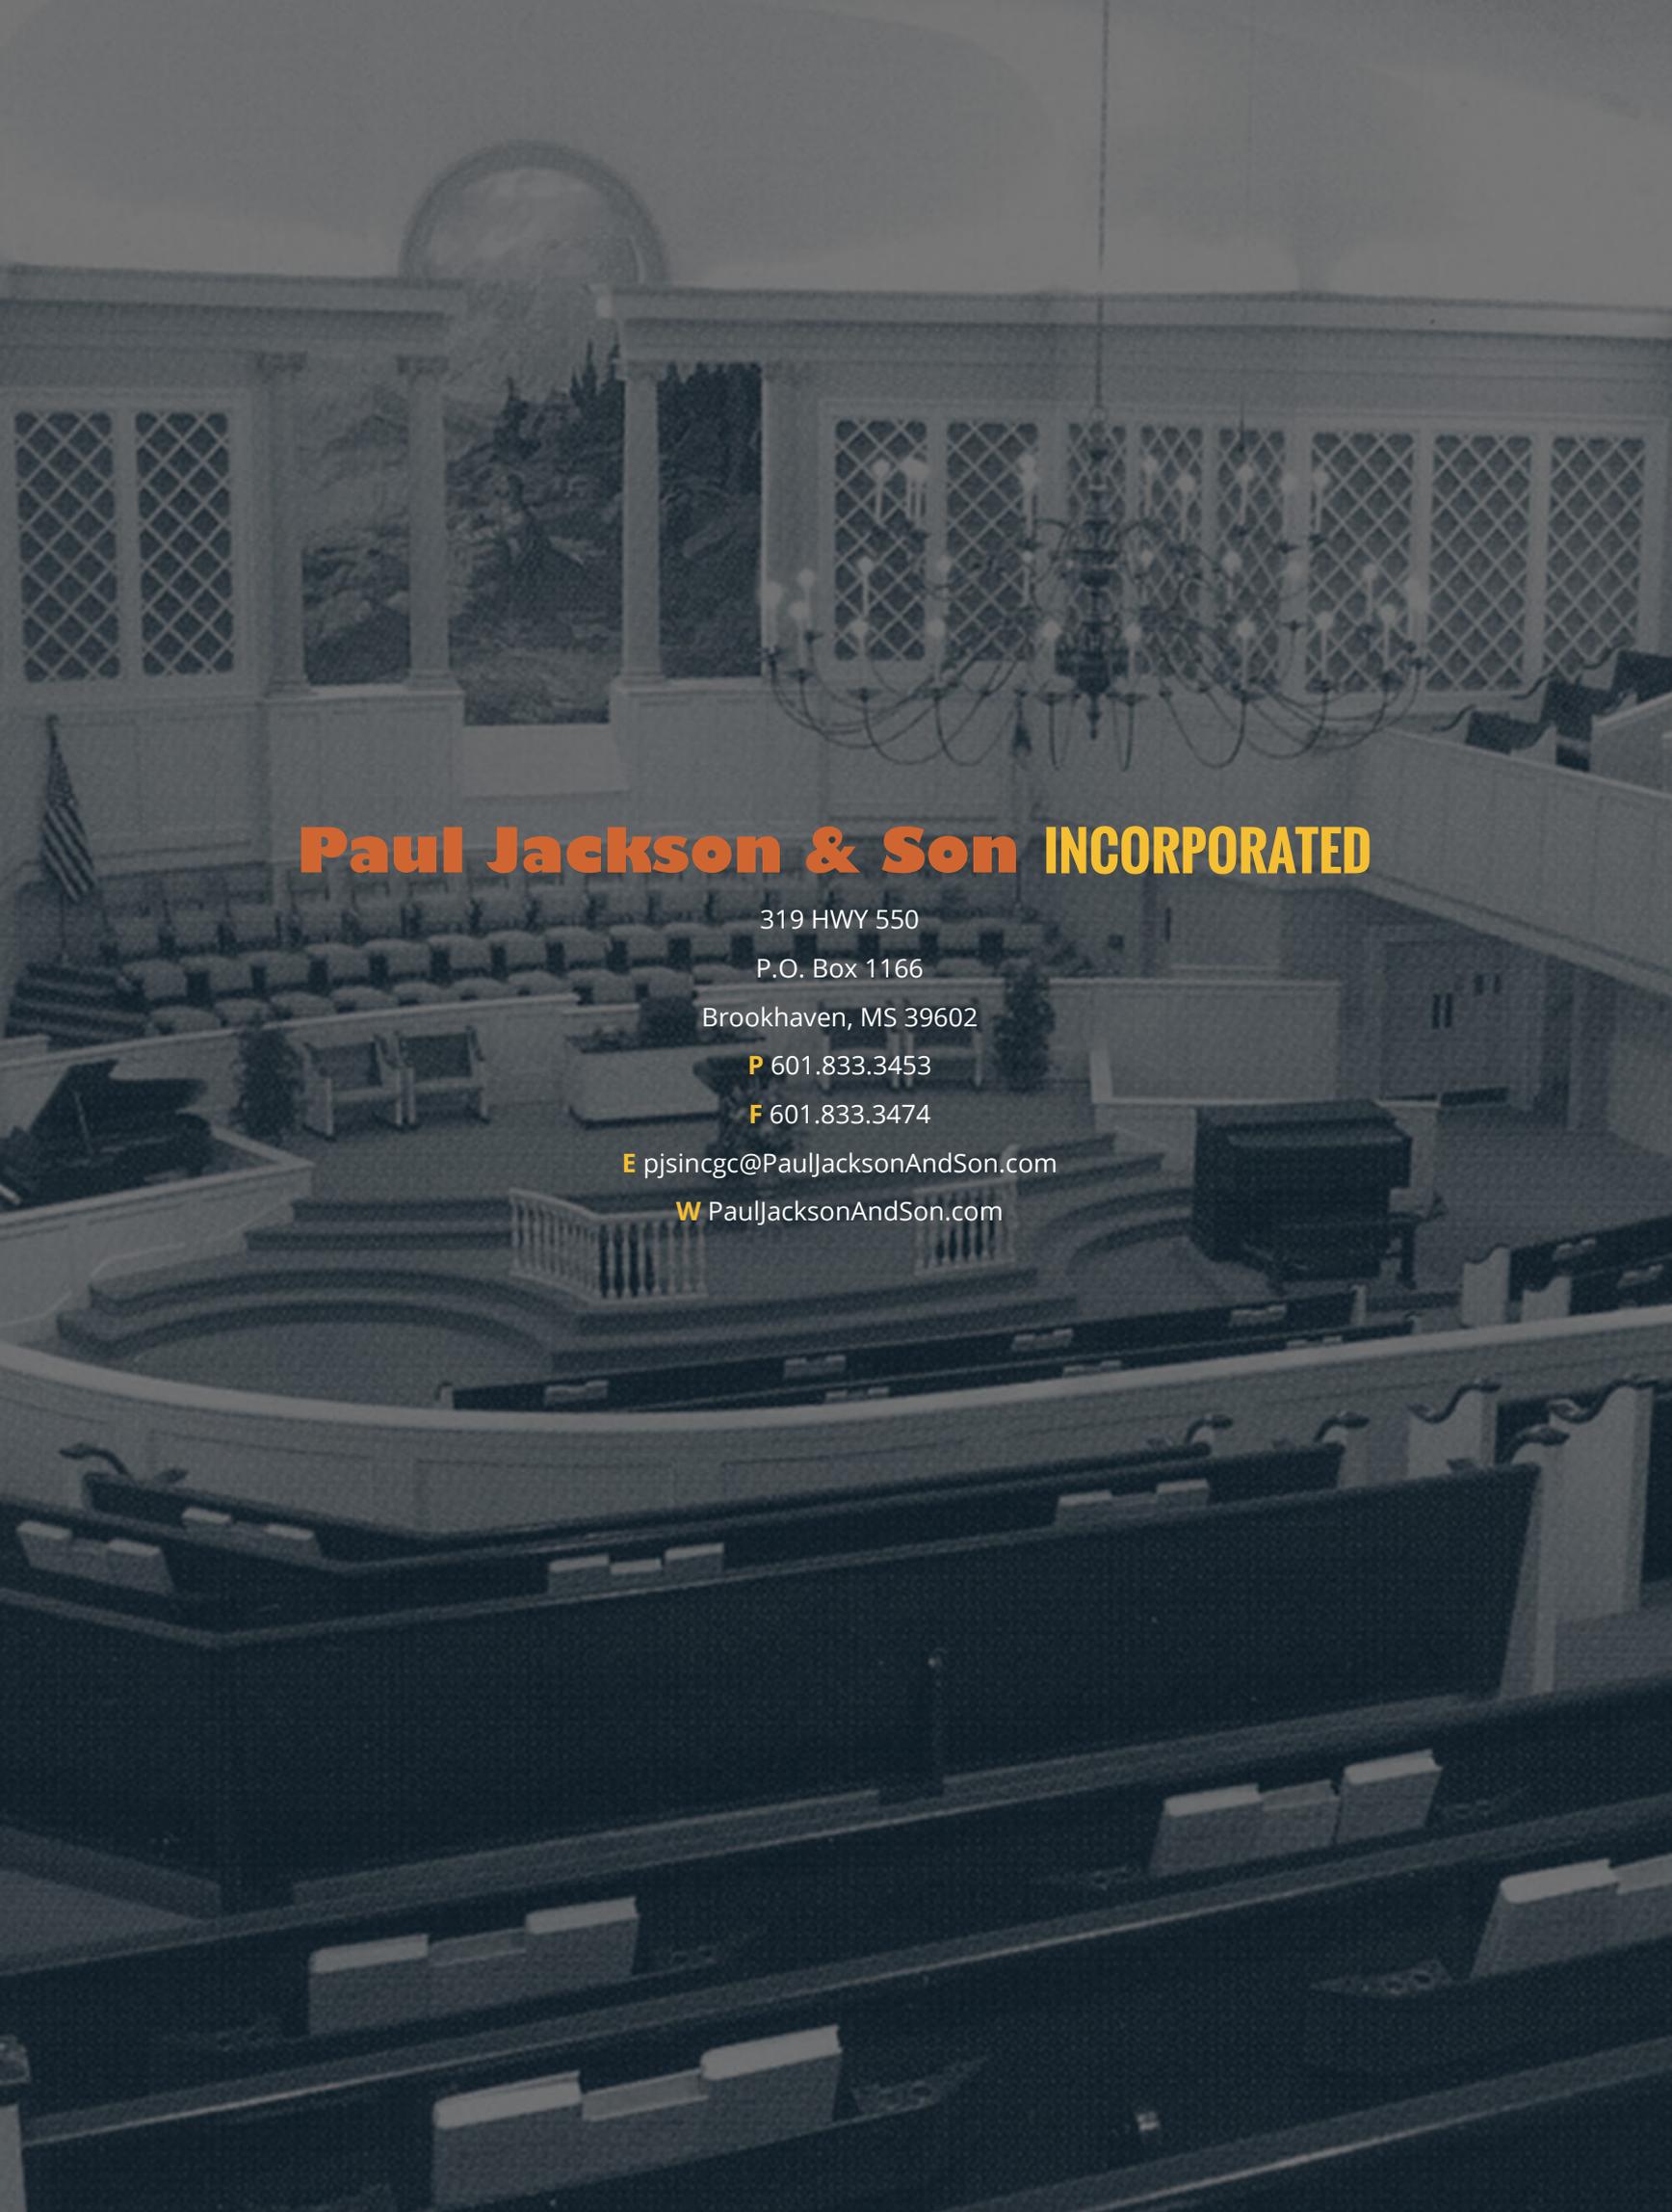

Paul Jackson & Son is highly regarded in construction and re-construction on campuses for colleges, schools and universities. Our experience working with architects and administrators in the educational realm allows us to take a vision and expand it into a functioning, solid building that can withstand the wear and tear of decades of students.

FINANCIAL INSTITUTIONS

Financial institution or not – we want all Paul Jackson & Son buildings to exhibit the sturdiness and dependability required for even the most extravagant vaults. Our experience building financial institutions over the years makes us your go-to resource for quality results, even when budgets are tight.

A grayscale photograph of a church sanctuary. The view is from the back of the pews, looking towards the front. A large, ornate chandelier hangs from the ceiling. The front of the sanctuary features a raised platform with a piano and a pulpit. There are several windows with lattice work. An American flag is visible on the left side.
